The HERA-B Vertex Detector: First Results from Detector Commissioning

Wolfgang Wagner[1]

Max-Planck-Institut für Physik, Föhringer Ring 6, 80805 München, Germany

For the HERA-B Collaboration

Abstract

An overview of the design of the HERA-B vertex detector is presented. During the 1998/99 commissioning run 25% of the system was instrumented. First results from this data taking period are shown.
